

EHOVE ADULT CAREER CENTER MEDICAL ASSISTANT

All About This Program

Medical Assisting is one of the fastest growing allied health care careers. Having both administrative and clinical training allows for more employment opportunities. According to the U.S. Bureau of Labor and Statistics employment of Medical Assistants is expected to grow by 31 percent from 2010 to 2020, much faster than the average for all occupations. Not surprisingly, the demand for Medical Assistants is expanding rapidly. Graduates of this program have received 100% pass rate on their national medical assisting certification exam. For more information about our graduation rates, the median debt of students who completed the program and other important information, please visit our website at <http://www.ehove.net/Medical-Assistant.html>.
