

Tyler Harris

Class of 2009—Licensed Practical Nursing Program

Prior to enrolling in EHOVE's Adult Education's License Practical Nurse (LPN) program, Tyler was working in a factory. He had no medical experience but felt that the health field was where he wanted to be. As a part of the LPN program Tyler earned his State Technical Nursing Assistant (STNA) certification so he began working as a health care provider as he continued taking nursing courses. After he became an LPN he attended Firelands Regional Medical Center LPN to RN fast track program. He worked as an RN at the same time working on his Bachelor's of Science degree in Nursing from Ohio University.

Tyler stated that EHOVE has made a phenomenal difference for him. He wanted to make a difference and EHOVE helped him achieve that by helping him earn his STNA certification then an LPN....those experiences helped him grow and he was so much further ahead when he went on to become an RN and grow his professional career.

Tyler is now the Assistant Director of Nursing at the Ohio Veterans Home. He lives in Willard with his wife Brittany. They have been married for nine years.

"Tyler is caring, kind, compassionate and friendly, and acts as a resource for the nursing and aide team on a daily basis. Tyler looks for opportunities to learn more, fine tune his skills, and improve the welfare of the residents we serve each and every day. Tyler listens with a careful ear, observes with a detailed eye and treats each person he encounters as family....we are blessed to have him on our team."

Amy Nolan, Director of Nursing—Norwalk Memorial Home
